

Read and follow the instructions to create your own Easter Bunny!

You will need:

Some OLD SOCKS – around 3 or 4 (Don't worry if you don't have this many!)

2 or 3 rubber bands/ elastic hair bobbles

Scissors

Glue

Googly eyes or some eyes drawn on paper (and cut out)

Marker or felt tip

A pom pom or cotton wool for a tail

Ribbon or string

Instructions:

1. Choose which sock will be the best colour for your bunny.
2. Now roll up two other socks in a ball and stuff it into the bunny sock. Tie a rubber band securely tight. This will be the neck.
3. Next, roll another sock into a smaller ball. Again, stuff the bunny sock. Tie a band around this part. This is the head.
4. Now you should have some of the sock left over where you tied the band. Cut it down the middle so you get close to the elastic. These will be your ears.
5. Add your eyes with glue.
6. Draw on a mouth and some whiskers.
7. Decorate your bunny by adding a tail, some ribbon or string, and anything else you can think of!
8. Put the head of the bunny on top of the body!
9. Can you name the bunny?
