

Addition – 2 Digit + 2 Digit (not crossing 10)

Column Method

2. We add our tens together next. It looks like  $2 + 3$ , but we know that this is really  $20 + 30$  because these are tens!  
 $2 + 3 = 5$

$23 + 35 =$

1. We add our units (or ones) together first.  
 $3 + 5 = 8$

3. Our answer is 58.

Draw the column method to help you answer the sums:

1.  $16 + 23 =$

2.  $24 + 32 =$

3.  $46 + 21 =$

4.  $48 + 51 =$

5.  $46 + 33 =$

6.  $57 + 32 =$

7.  $41 + 55 =$

8.  $84 + 15 =$

9.  $46 + 52 =$

10.  $23 + 61 =$
