Reasoning and Problem Solving
Step 6: Compare Money

National Curriculum Objectives:

Mathematics Year 2: (2M1) Compare and order lengths, mass, volume/capacity and record the results using >, < and =
Mathematics Year 2: (2M3a) Recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value
Mathematics Year 2: (2M3b) Find different combinations of coins that equal the same amounts of money
Mathematics Year 2: (2M9) Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change

Differentiation:

Questions 1, 4 and 7 (Problem Solving)
Developing Complete the statement in different ways, using knowledge of comparing money. Money in pounds or pence using coins or notes of the same value in each group.
Expected Complete the statement in different ways, using knowledge of comparing money. Money in pounds and pence where one value will stay the same e.g. £4 and 20p > £2 and 20p.
Greater Depth Complete the statement in different ways, using knowledge of comparing money. Money in pounds and pence where one value will stay the same, with some written amounts used.

Questions 2, 5 and 8 (Reasoning)
Developing Explain the mistake in two comparison statements. Money in pounds or pence using coins or notes of the same value in each group.
Expected Explain the mistake in two comparison statements. Money in pounds and pence where one value will stay the same e.g. £4 and 20p > £2 and 20p.
Greater Depth Explain the mistake in two comparison statements. Money in pounds and pence where one value will stay the same, with some written amounts used.

Questions 3, 6 and 9 (Reasoning)
Developing Compare two amounts of money to explain if a given statement is correct. Money in pounds or pence using coins or notes of the same value in each group.
Expected Compare two amounts of money to explain if a given statement is correct. Money in pounds and pence where one value will stay the same e.g. £4 and 20p > £2 and 20p.
Greater Depth Compare two amounts of money to explain if a given statement is correct. Money in pounds and pence where one value will stay the same, with some written amounts used.

Reasoning and Problem Solving
Compare Money

Developing

1a. Various answers, for example: 18p, 15p, 11p

2a. B because £1 > 80p

3a. Jake is correct because 20p is greater than 6p.

Expected

4a. Various answers, for example: £1 and 10p, £1 and 34p, £1 and 55p

5a. A because £2 and 20p > £2 and 10p

6a. Javed is incorrect because they both have £5 and 20p.

Greater Depth

7a. Various answers, for example: £7 and 30p, £7 and 25p, £7 and 21p

8a. A because £9 and 42p > £9 and 24p

9a. Lily is correct because £6 and 25p is greater than £5 and 25p.

Reasoning and Problem Solving
Compare Money

Developing

1b. Various answers, for example: 25p, 40p, 55p

2b. B because 3p < 10p

3b. Liam is incorrect because they both have £10.

Expected

4b. Various answers, for example: £2 and 10p, £2 and 9p, £2 and 16p

5b. A because £4 < £5

6b. Ella is correct because £10 and 50p is greater than £2 and 50p

Greater Depth

7b. Various answers, for example: £3 and 35p, £3 and 40p, £3 and 43p

8b. B because £5 and 46p > £4 and 56p.

9b. Owen is incorrect because they both have £10 and 70p.
