

SNAG Team

Friday 20th March 2026

Members of the SNAG Team attending:

2D – Isla and Elliott

2B – Hazel and James

2T – Willow and Jude

1L – Dylan

1S – Ffion and Winter

1P – Evie and Leo

1. We met to discuss food waste within our school. We decided to speak to Mr Rob and find out how food waste was dealt with.
2. Mr Rob showed us the brown waste bin outside the kitchen. He explained that any food waste from children's plates would be put into this bin at the end of each lunchtime. Mr Rob explained that some days there is more waste than other days.
3. We asked what happened to the food that was left over at the hatch when all of the children had been served. Mr Rob explained that, wherever possible, he will use things in meals the following day. For example, left over sausages are used in sausage toasties, left over Spanish chicken is sometimes used in wraps. We talked about other healthy options we would love to see on our menu and Mr Rob said he could look at including the vegetable and hummus dip pots to encourage more children to eat vegetables.

SNAG Team

Friday 20th March 2026

4. We watched Reception having their lunch and monitored the food waste. The children were given two fish fingers but a number of children only ate one. We also noticed that the main waste was from the peas. We decided to think about ways to encourage children to eat more vegetables. To be discussed at our next meeting.

Next meeting April 2026
